

HINGES

6" & 12" Acryl-Hinges

No more cutting and polishing longer hinges to a shorter length.

6" & 12" HINGES Have Been REDESIGNED and are the only ones with Micro Dots® for faster / easier bonding time. The low profile was designed after our industry tested and proven Flex-Fold 2™ Hinge. This gives both the 6" and 12" a cleaner finished look that your customers will appreciate. As always, our Hinges are manufactured from High Strength Acrylic with the pins made from a self lubricating acrylic. The pin is locked in on one end so you DO NOT have problems with the pin working loose.

6" Acryl-Hinge™

Size: 1½"x 6"

Color: Clear

Material: High Strength DR Acrylic

Patent Pending

| Part No. | Each | 50 | 100 | 400 | 1,200 |
