

# ACRYL-PULL™

Acryl-Pulls are solvent cementable, labor saving Acrylic Pulls for plastic fabrication. They're an attractive alternative to acrylic spheres or cubes and cost less than pulls made from rod or sheet. Available in three sizes each suitable for a variety of applications.

Acryl-Pulls improve the look and feel of fabricated parts. Their smooth surfaces are easy to clean and the highly polished finish is crystal clear. Acryl-Pulls are simple to apply. Micro Dots™ guarantee a strong, bubble-free bond. Special vents let solvent vapor escape which prevents chemical crazing.

## SMALL PULLS Available in Clear, Black and White Size: 3/8" x 2" (9mm x 51mm)

Part No.	Color	Each	100	600	1200	1800
AP3C	Clear					
AP3B	Black					
AP3W	White					

## MEDIUM PULLS Available in Clear, Black and White Size: 7/16" x 2 3/4" (11mm x 70mm)

Part No.	Color	Each	100	600	1200	1800
AP2C	Clear					
AP2B	Black					
AP2W	White					

## LARGE PULLS Available in Clear, Black and White Size: 1/2" x 3 1/2" (13mm x 89mm)

Part No.	Color	Each	100	600	1200	1800
AP1C	Clear					
AP1B	Black					
AP1W	White
