

# KEYHOLE ATTACHMENT

The KHA200 Acryl-Keyhole™ and KHA300 Acryl-Hanger™ attachments are a quick, easy and clean way to hang an acrylic frame, literature holder or wall mount display. The "V" style KHA300 is small and exceptionally strong, the "V" style makes hanging a breeze, accommodating up to a 16d nail without fear of breakage due to the bonding surface placed across the top. The KHA200 is a classic design with that "keyhole" look. Micro Dots® on both the KHA200 and KHA300 make gluing quick and easy.
